CHALLENGE: Stellar Stories: Space Weather through the eyes of Earthlings

OBJECTIVES: To write & illustrate a children's story about

- Space Weather
- Its impacts

OUR OBJECTIVES

- Increase awareness on the importance of space programs
- Introduce concepts of space weather

OUR PROJECT

WHAT ?

A short science fiction story of an everyday human who demonstrates the importance of technology, awareness, and preparation, specifically about space weather and its impacts.

WHY ?

Stories are what connect people.
Like a meteorite causing a crater, the impact of a good story stays with us long after.

WHO ?

High school students (and anyone who wants to learn)

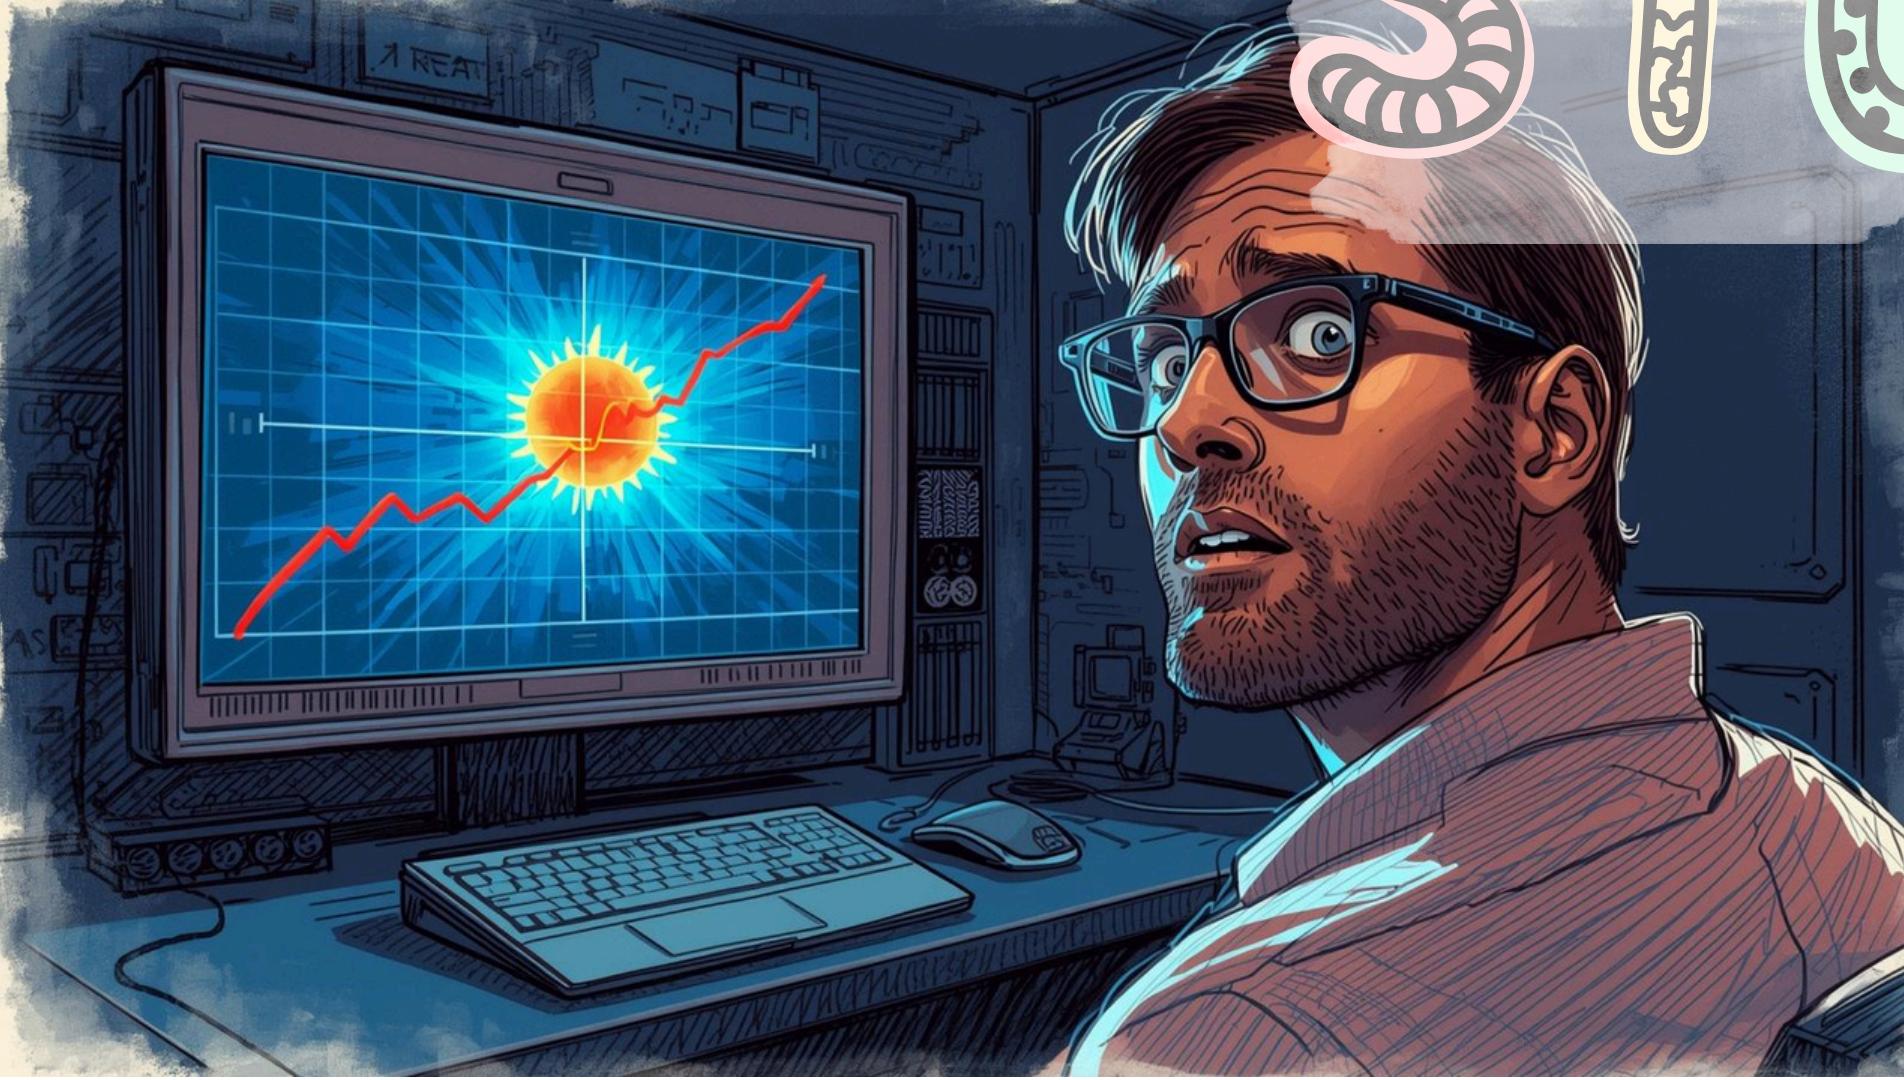

SPACE WEATHER PREDICTION CENTER
NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION
